To MCMS:

I am recommending Dr Sandhya Ravi (MD) for the Distinguished Service-Individual award for her sacrificial service to Maricopa Co residents in being an early provider of COVID-19 vaccines even at cost to her private practice (Pleasant Pediatrics) that was not being reimbursed e.g. she paid staff overtime to run Saturday and evening clinics in their off hours, providing these life saving vaccines to any and all, regardless of whether they were clients of her practice or not. She did this out of altruistic devotion to the health and wellbeing of many, as did her staff.

I will also post this letter under the "Distinguished Service—Organization" for her Practice: Pleasant Pediatrics. All the staff of that great practice, not just Dr Ravi, sacrificed their time and talents to provide thousands of COVID-19 vaccinations to any Maricopa County residents, to anyone who asked.

Best regards,

Christine Harter MD
