

Dr. John Anwar is the Medical Director of St. Vincent de Paul Clinic, known for his passion to increase access to health care for all persons. Dr. Anwar became the medical director and chair of medicine at St Vincent de Paul for his lifetime effort to care for those in need. Already, the clinic has had nearly 8,000 total patient visits and provided more than \$2 million in services, including office visits, procedures, surgeries, radiology services, wound care, labs =, and patient assistance with medications. More than 33 subspecialty clinics are now offered at St Vincint dpaul.

Not only is **Dr. Anwar** a notable physician, but a worthy role model for the 107 Creighton students who have been engaged with the clinic, who are motivated by the Ignatian-inspired charism of *cura personalis* – care for the whole person. His oversight at St. Vincent de Paul Clinic ensures that we can offer students, residents, and fellows a rich learning experience in a diverse clinical setting.
